

# Ash Management Specialist

## • Gladstone Power Station

NRG Gladstone Operating Services (NRG GOS), a wholly owned subsidiary of NRG Energy Inc; operates and maintains the 6 unit, 1680MW Gladstone Power Station; a world class coal fired facility providing safe, reliable, low cost power. The new leadership team is combining the knowledge from an experienced generation with the energy of the younger generation to produce The Next Generation NRG.

NRG GOS fosters a culture where people create value and business outcomes are achieved.

Key accountabilities of the role include:

- The strategic delivery of ash management via ash sales, ash placement and land rehabilitation
- Leading the operation and asset management of Gladstone Power Station off-site ash facilities and infrastructure
- Managing contractors, costs and budgets and ensuring compliance with legislative requirements
- Assisting in the identification, development and utilisation of new technologies, practices, processes and systems

Applicants should have a trade qualification as a minimum, with further studies in a mechanical or civil discipline preferred. Previous experience in budgeting, contract management and effectively managing stakeholder relationships is essential. Applicants should also be able to demonstrate an understanding of environmental principles, a sound knowledge of the Microsoft suite and the ability to achieve outcomes while working autonomously. A knowledge of bulk material handling, earthmoving and coal fired power station operations will be highly regarded.
