

Mechanical Fitter

NRG

- **Permanent Day Position**
- **Gladstone Power Station**

NRG Gladstone Operating Services (NRG GOS), a wholly owned subsidiary of NRG Energy Inc; operates and maintains the 6 unit, 1680MW Gladstone Power Station; a world class coal fired facility providing safe, reliable, low cost power. The new leadership team is combining the knowledge from an experienced generation with the energy of the younger generation to produce The Next Generation NRG.

As a member of the Maintenance Team in the Fuel Process area, you will carry out a range of maintenance activities ensuring reliability and availability of plant at Gladstone Power Station.

Duties will include:

- Performing general maintenance duties within specified maintenance process areas
- Observing and promoting safe work systems and environmental policies and procedures
- Actively supporting the workgroup by sharing information, contributing to continuous improvement processes and participating in team planning.

Applicants should possess:

- Trade certification as a Mechanical Fitter and Turner and problem solving/fault finding experience on mechanical equipment within a heavy industrial environment.
- Previous experience working in fuel processing or coal handling plant including pulverisers, feeders, hydraulic systems, burners and conveyors will be highly regarded.
- Basic rigging, dogging and scaffolding tickets together with experience in the maintenance and repair of hydraulic and pneumatic systems are preferred

NRGGOS offers excellent working conditions including a flexible 9 day fortnight and relocation assistance.

Further information about NRG is available at www.nrggos.com.au

A Role Description and additional employee information is available from Downing Teal Pty. Ltd. Gladstone.

For further information please contact Leonie Hills on (07) 4970 0800.

Applications closing 29th January 2010 can be submitted via the website <http://jobsearch.downingteal.com> by entering 112928
